EDUCATION

Chendhuran College Of Engineering & Technology | 2022-2025

Bachelor In Computer Science Engineering

- CGPA: 7.88

Chendhuran Polytechnic College | 2019-2022

Diploma In Electrical and Electronics

- CGPA: 8.50

Christhuraja Martric School | 2019

10th School

- Percentage: 64.8%

PPROJECTS

Smart Billing System:

Developed a desktop-based Smart Billing System using Python and CustomTkinter, featuring robust product management, memory slot handling for temporary cart storage, and automated invoice generation integrated with SQLite3 for data persistence. The system enables users to add, modify, and delete products, manage temporary memory slots for interrupted purchases, and process billing seamlessly. Contributed to the frontend by designing responsive CustomTkinter interfaces, optimizing user interaction flow, and ensuring intuitive navigation across billing, product handling, and cart management modules.

Seat Allotment System:

The seat allotment system is a software solution designed to automate and manage the allocation of seats for events, courses, or any other type of seating requirement, and the system ensures that seats are assigned efficiently based on predefined criteria such as priority, availability, or user preferences.

CERTIFICATES

- Completed the Creators of Metaverse Student Program : META
- Completed the Udemy Power BI Course

TECHNICAL:

- Python
- SQL
- HTML / CSS

TOOLS:

- Power Bi
- MS Excel
- MS word
